WE LIVE BY

4 SIMPLE VALUES

1. Listen to what customers want.
2. Work with them to provide it.
3. Keep listening to make sure we've got it right.
4. Listen some more.

Listening to our customers is paramount. It's been that way since day one; we feel it's what makes so many people continue to use and praise our products. From developing a new product to improving an existing range, your feedback is invaluable. Join the conversation today and be part of everything Dirty Rigger by following us on Facebook.

WHERE DID IT ALL START?

Our parent company, Le Mark Group has supplied tapes and accessories to the arts and entertainment market since 1983. For many years, Le Mark distributed rigging gloves from some of the biggest manufacturers around the world (and loved doing it). However, they felt they could offer something a little different. The team at Le Mark had a mission to create something from scratch and offer a range of rigging gloves and accessories that were built almost entirely from user input. In 2009, Dirty Rigger was born. Since then (and by little more than word of mouth) Dirty Rigger has grown to supply over 120 distributors in over 50 countries across the globe. We're really quite proud of that!

PPE TESTING

Protecting the hands that earn you a living and put food on the table is paramount to what we do. As a result, all Dirty Rigger gloves are tested to various international standards for PPE. Here's a quick guide on what the symbols mean and how they help protect you.

CE MARK

The letters 'CE' appear on many products that are traded on the single market in the European Economic Area (EEA). A CE mark indicates that the product conforms to a range of safety, health and environmental protection requirements.

Not all products must bear the CE marking - only those specific to particular categories or directives, like PPE items. As a result, all Dirty Rigger Gloves are CE marked.

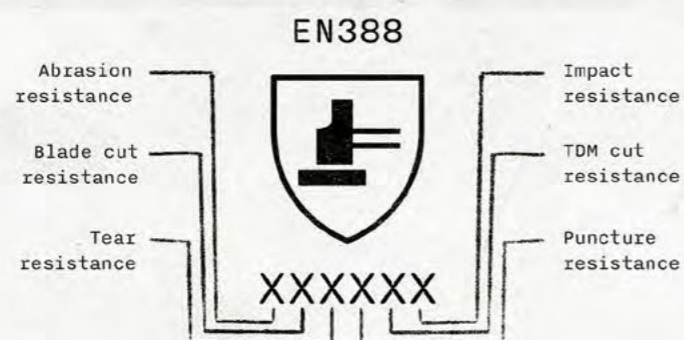

UKCA

UKCA MARK

The UKCA (UK Conformity Assessed) marking is a certification mark that indicates conformity with health, safety, and environmental protection standards for products sold within the United Kingdom. It came into effect on January 1, 2021, after the UK left the European Union.

Not all products must bear the UKCA marking - only those specific to particular categories or directives, like PPE items. As a result, all Dirty Rigger Gloves are UKCA marked.

EN388

Numerous changes over the years make it easy to get confused with EN388. To make it easier, we've summarised some key areas below...

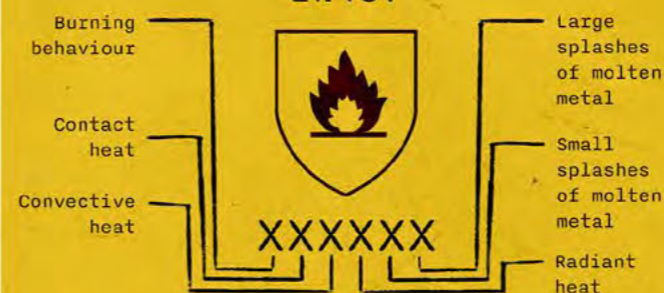

EN388 (usually followed by a revision date) is a European safety standard for gloves that protect against mechanical risks. Many other countries outside the EU have also adopted the EN388 standard. The standard has been updated several times over the years, but in general, it includes physical tests to assess the resistance of the glove's palm area to abrasion, cutting, tearing and puncture. Most tests use a number to indicate the performance level (1-4, or 1-5, depending on the test); **the higher the number, the greater the protection.** Furthermore, some additional tests for cut resistance use a letter (A, B, C, D, E, F) to indicate the performance level scale. In this case, 'A' offers the least protection, and 'F' provides the greatest protection.

If applicable, gloves may also be tested for impact resistance and will display a 'P' to indicate a pass. Unlike some tests, there is no grading level for this standard. The glove must meet all the primary requirements for impact protection in order to pass.

What does the 'X' or '0' mean?

If you see an 'X' or an '0' this indicates that a test was not conducted or that no score was achieved. This is likely due to the test not being required for the gloves' intended use.

EN407

STANDARD EN 407

EN407 (usually followed by a revision date) is a general standard designed for gloves which are intended to provide protection against thermal hazards. EN407 has been updated several times over the years, but in general, it includes physical tests to assess the thermal resistance of the glove's palm area. Tests include: burning behaviour, contact heat, convective heat, radiant heat, and small and large splashes of molten metal. A number from 1-4 indicates the performance level; **the higher the number, the greater the protection.** It's common for a glove to only show a performance level for one or two EN407 tests. This is likely due to some of the tests not being required for the gloves' intended use. Tests not conducted will display an 'X'.

IMPORTANT: The information shown is intended as a general guide only. We make all reasonable efforts to ensure its accuracy at time of print, however we recommend referring to the official documentation provided with your PPE.

INFO BOOK

The info book symbol is usually found wherever a product is claiming EN388, EN407 and many other standards. Info books or, User Information Guides, as they're also known, contain important information about a gloves' intended use, limitations, testing results and more. They're important documents and should be read before using the product.

GLOVES

Designed for riggers by riggers. All Dirty Rigger gloves combine comfort with durability; breathable backs help your hands stay cool, while protection-focused palms prevent injuries from day-to-day cuts, scrapes and abrasions. They're purpose-built for life on tour.

MEASURE UP!

- Carefully cut out the measuring strip (left).
- Hold all four fingers together, but only lightly, don't press them together firmly. This makes it easier to get an accurate measurement of the width of your hand.
- Lightly wrap the measuring strip around one hand, just below the knuckles. Note the measurement and use the size guide on the left to find your approximate size.

We suggest rounding up to the nearest size if you are in between sizes.

SIZE GUIDE

Hand Size	Size No.	HAND CIRCUMFERENCE (MM)
XXS	5	127mm
XS	6	152mm
S	7	178mm
M	8	203mm
L	9	229mm
XL	10	245mm
XXL	11	279mm

GENERAL PURPOSE

COMFORT FIT™

General Use

Our top seller for over a decade! Designed for all-day wear, these EN388-certified gloves combine breathable materials with abrasion-resistant palms and flexible 4-way stretch fabrics for all-round versatility. They're the perfect work glove for effortless general rigging, every day.

COMFORT FIT™

BLACK EDITION

General Use

The NEW Comfort Fit Black Edition Gloves are purpose-built for backstage and on-camera environments. Crafted with discreet branding and colouring for minimal visual impact, these gloves offer professional-grade protection while remaining subtle in front of an audience. Featuring durable double stitching and abrasion-resistant, dual-layered palms, they provide robust, reliable safety without drawing attention.

The above dexterity and durability charts are intended only as a general comparison across the Dirty Rigger range.

GENERAL PURPOSE

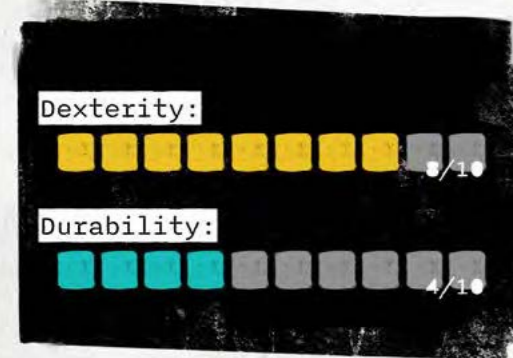

GENUINE LEATHER

COMFORT FIT™ 0.5

Light Use

Discover ultimate lightness and flexibility. Weighing just 40g per glove, they're the lightest glove to wear across the Dirty Rigger range. Designed to offer maximum dexterity and virtually unrestricted movement. Complete with EN388 certification, these work gloves are ideal for most light-duty rigging tasks.

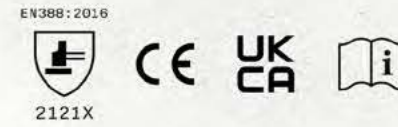

The above dexterity and durability charts are intended only as a general comparison across the Dirty Rigger range.

LEATHER GRIP™ 3.0

Heavy Duty

Specially selected, double-layered goat skin hide creates an exceptional defence for the palm of your hands. In contrast, lighter, more breathable materials on the back of the glove encourage a comfortable flow of air, helping to keep your hands cool as you work. This genuine leather glove comes complete with EN388 certification.

SLIM FIT™ 2.0

General Use

If you often find rigger gloves too baggy, then the Slim Fit™ range could be just what you're looking for. Specifically designed for smaller hands, these breathable and flexible gloves deliver a snug fit with impressive durability-ideal for most everyday rigging tasks. Complete with EN388 certification.

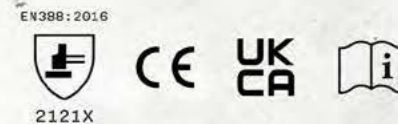

The above dexterity and durability charts are intended only as a general comparison across the Dirty Rigger range.

ROPE-OPS™ 2.0

Rope Glove

Achieve supreme fly control with the Rope Ops 2.0. Built with aramid fabrics on the palm for exceptional abrasion resistance and 3D high-ventilation mesh for maximum breathability. These EN388-certified gloves deliver robust palm-protection and supreme fly control. Perfect for most rope-access tasks across various industries, from theatre to emergency services.

The above dexterity and durability charts are intended only as a general comparison across the Dirty Rigger range.

HEAVY DUTY

PHOENIX 2.0™

Heat-Resistant

Dirty Rigger's heat and abrasion-resistant glove. The Phoenix Glove resists a maximum temperature of 250°C for up to 15 seconds (EN407: 2004, Contact Heat on palm). Furthermore, the heat-resistant lining is reinforced with ultra-tough, abrasion-resistant leather and secured with double-stitched seams for exceptional durability.

TECHNICIAN'S BACKPACK

Designed by technicians, produced by Dirty Rigger. The Dirty Rigger Backpack brings together 18 months of product development, with input from industry specialists around the world. Every inch has been meticulously designed and constructed to give the user the best use of space, organisation and access. It's so tough, spacious and versatile, it might just be the only backpack you'll ever need. If that wasn't enough, the backpack is also made using 80% recycled materials - the equivalent of 30 plastic water bottles.

DIMENSIONS

Overall: 42cm(W) x 50cm(H) x 20cm(D)
Outer side pockets: 15cm(W) x 22cm(H) x 4cm(D)
Front pocket: 27cm(W) x 32cm(H) x 3cm(D)
Main storage area: 32cm(W) x 49cm(H) x 14cm(D)
Laptop compartment: 30cm(W) x 44cm(H) x 3cm(D) - Fits most laptops up to 15.6"

Unladen weight: 2.1kg

Measurements are approximate.

THE ULTIMATE TECHNICIAN'S BACKPACK

CHEST MATE PRO™

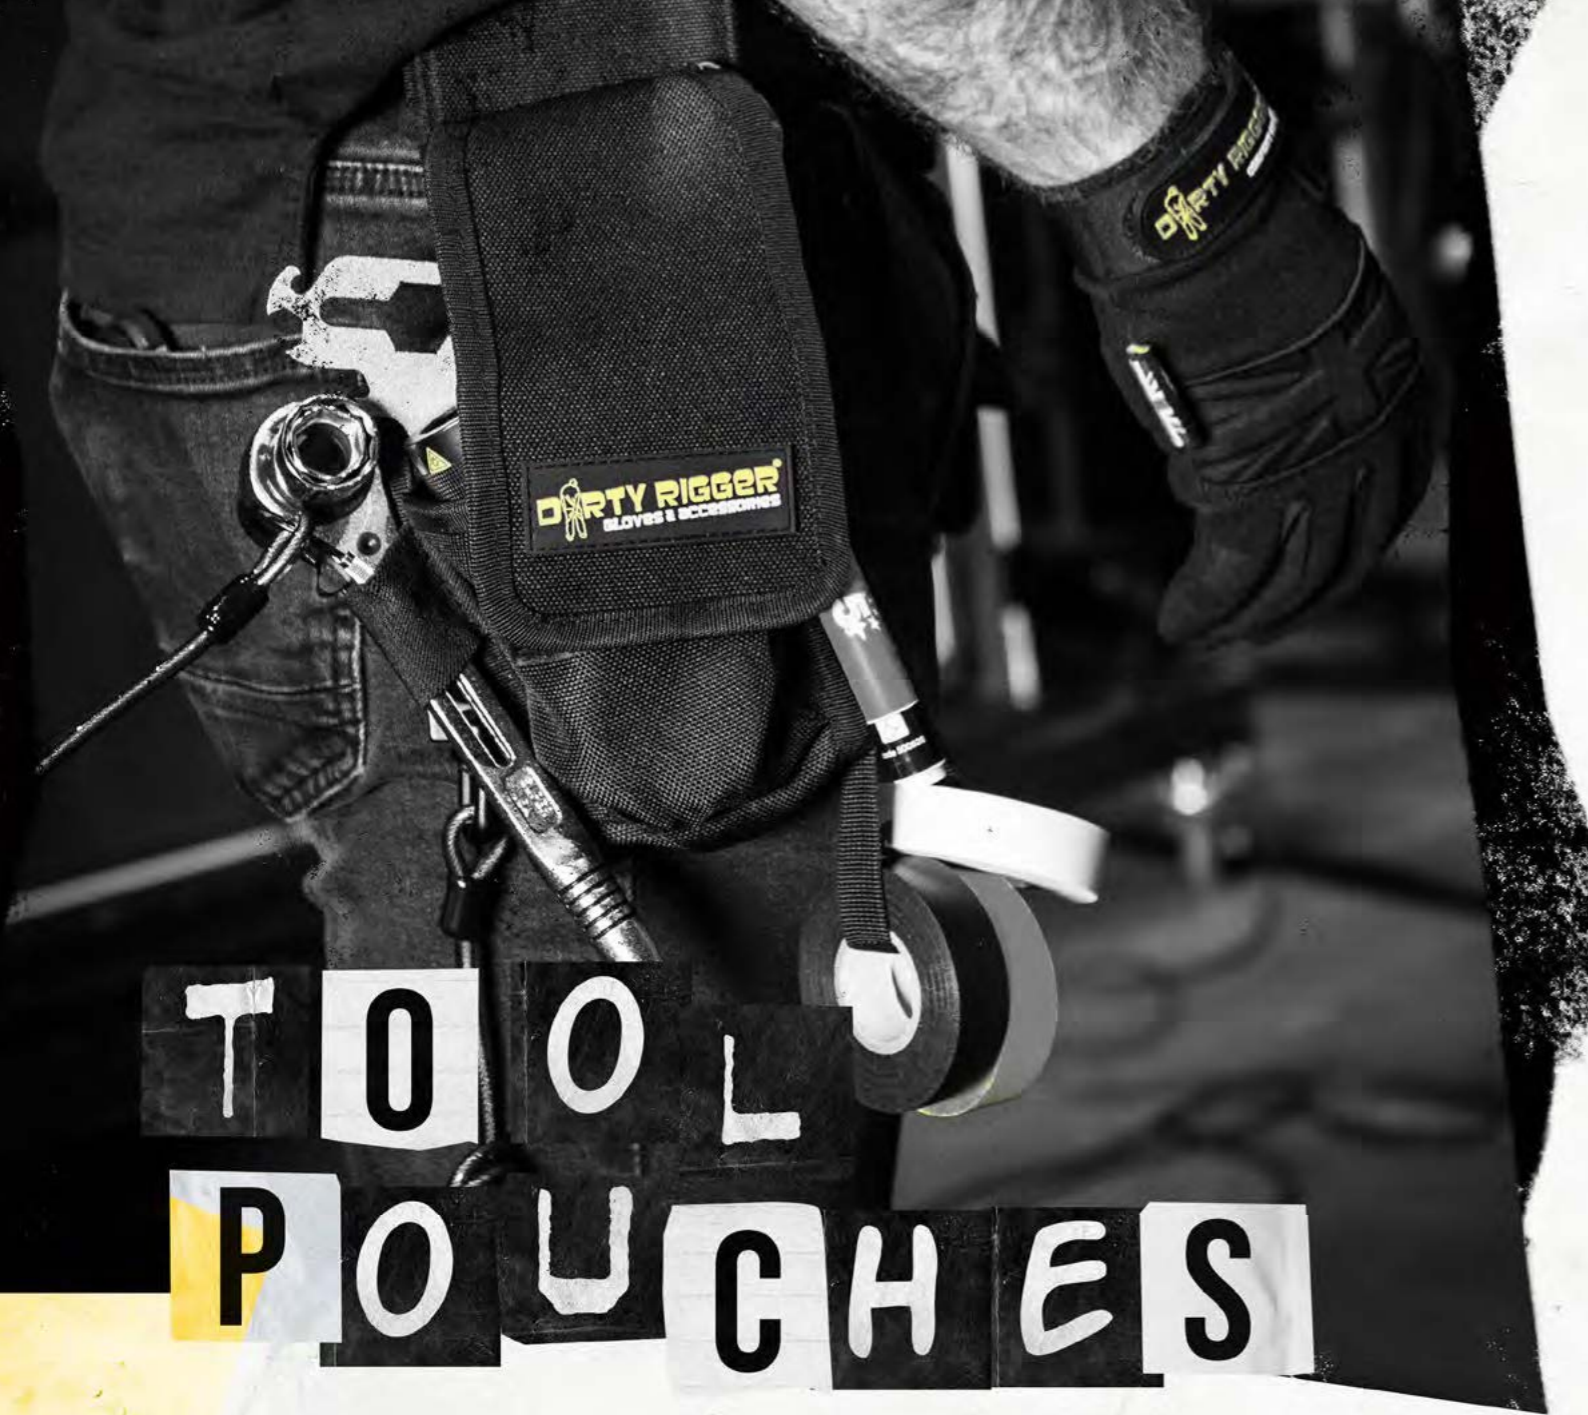

NEW

THE ULTIMATE HANDS-FREE SOLUTION FOR TABLET USERS

Elevate your workflow with the Dirty Rigger Chest Mate Pro, the innovative chest-mounted platform designed for most other leading tablet brands. Crafted with sound and lighting technicians in mind, this ergonomic solution provides comfort, stability, and efficiency for professionals who need their devices within easy reach, whilst keeping their hands free to work.

Whether you're managing complex lighting setups or coordinating sound production, the Chest Mate Pro keeps your technology easily accessible while ensuring optimal comfort. Stay hands-free and focused on the task at hand!

TOOL POUCHES

RADIO POUCH

Universal radio pouch, with multi-point attachment

Wear it your way with the new Radio Pouch from Dirty Rigger. Dual mounting options give you more flexibility on radio location, allowing you to work more freely. Fitted with a traditional pass-through for belt attachment, and also a vertical pass-through for secure mounting onto almost any chest rig.

Tough outer shell

Tool belt slot

Ultra-light weight (only 84 grams)

Open top and corners for maximum audio output/reception

Single handed buckle access

Hook & loop secured chest mounts

Elasticated sides for universal compatibility

TRUSS PIN BAG

Pin.Clip.Load.Repeat.

Free your hands and pockets from weighty truss pins and store them neatly in the Dirty Rigger Truss Pin Bag.

Hold up to 100 pins and clips together in the main 2ltr storage area. Alternatively, organise your pins and clips into separate compartments. As a result, you can grab what you need, when you need it - no more rummaging through pockets!

Crafted from Dirty Rigger's signature heavy-duty fabrics with sturdy metal accessory holders and rivets. The Truss Pin Bag is not just a storage solution; it's a reliable companion for rigging crews and professionals.

23"-42" adjustable belt

2ltr main storage area

Pen holders (x2)

COMPACT UTILITY POUCH

Compact Versatility

Our unique design provides essential tool storage in an ultra-compact space. Simply attach it to your belt and you'll almost instantly forget it's there. This clenched-fist sized pouch utilises every millimetre of space with heavy duty elastic technology which constantly contracts to make the bag no bigger than it ever needs to be. With 6 screwdriver slots, 3 layered pockets and one expandable centre pocket, you'd be amazed just how much you can get in.

1 internal central storage pocket - 8cm (H) x 6cm (W) x 5cm (D)

Magnetic closure flap

2 internal screwdriver pockets

Belt loop attachment on back

Shape-maintaining structure

1 internal back pocket - 8cm (H) x 6cm (W)

2 front mounted pockets - 7cm (H) x 7cm (W)

Ultra-durable 600x600 denier material

4 external open-bottomed screwdriver pockets

PRO-POCKET™ XT

More Tools, Minimal Bulk

The Pro-Pocket™ XT provides a tool storage solution which falls between the Pro-Pocket™ 2.0 and the Tech Pouch™ / Tech Pouch™ 2.0 for storage capacity. While still relatively compact, its innovative internal and external layout provides an impressive level of tool storage with minimal bulk.

Main tool compartment

Inside: 2 x vertical tool slots mounted in each compartment

Hook & loop secured belt pass-through

Quick-access, vertical storage layout

On the back: Belt clip for instant attachment/release

Side-mounted elasticated tool loop

Smartphone compartment

Headphone/powerbank cable pass-through

Detachable 27cm accessory loop

TECH POUCH

Rugged Ultra Light Storage

Weighing less than 300 grams, the Tech Pouch helps you keep tools organised with a 2.5ltr master pocket and 5 slip-in pockets around the inner walls. Instantly access your most commonly used tools from two open-topped pockets on the bag's outer edges and a built in pass-through for long handle screwdrivers.

Instant-access outer pockets

On the back: 50mm belt loop

Inside: 5 slip-in pockets

Inside: 2.5ltr main storage pocket with 5 individual tool slots

Side mounted grab handle

Tape measure holder with button lock

Easy-access mini pockets

Screwdriver pass-through

D-rings for additional attachments

Rugged 600 x 600 denier nylon construction

Inside: 2.5ltr main storage pocket

TECH POUCH 2.0

The Essential Riggers' Tool Pouch

An abrasion and puncture-resistant 4mm rubber base helps prevent pointed tools from piercing through the bottom of the pouch. Help keep your equipment organised with a 2.5ltr master pocket and 5 slip-in pockets positioned around the inner walls.

Inside: 5 slip-in pockets

On the back: 50mm belt loop

1 of 4 instant access outer pockets

Screwdriver pass-through

1 of 4 steel D-rings for additional attachments

Side mounted grab handle

PRO-POCKET™ 2.0

Instant Access, Vertical Storage

Low profile, light weight and extremely durable. The Pro-Pocket™ 2.0 has a unique layout design which enables it to hold a professional's must-have tools and necessities with minimal bulk.

On the back: Easy on/off belt flap

1 of 3 open bottom tool pockets

Side-mounted podger pocket

On top: Integrated accessory loop with snap hook included

Inner tool pocket

Side-mounted D-ring

Detachable 26cm accessory loop

LED CHEST RIG

Keep Your Tools Close to Your Chest

Store your essentials on this lightweight, compact Chest Rig with integrated 140 lumen LED. Water and shock resistant, the multi-function light source is easily removed for hand-held use and comes complete with a replaceable battery pack.

Integrated 140 lumen shock/water resistant LED

Zip-lock central pocket

Button-lock two-way radio pocket

Fully adjustable shoulder and torso straps

Strap-mounted D-ring for additional attachments

Pen holder

Front pocket with closure flap

TOOL BELT

Ventilated Tool Belt

Allow your waist to breathe with Dirty Rigger multi-layered material construction. The padded 30 internally-breathable mesh provides excellent ventilation throughout the belt, minimising uncomfortable under-belt sweat.

Internally-breathable mesh for ventilation

Adjust to fit sizes 30"-42"

5cm (2") belt

PADDED UTILITY BELT

Breathable, Padded Tool Belt

Spread the load with an extra wide 12.7cm (5") padded belt-back, lined with a breathable mesh and specially selected foam for optimum all-day comfort. Move freely as the belt narrows at the front and sides, minimising bulk and restriction of movement.

Extra wide 5 inch padded back

Breathable mesh for ventilation

Narrower sides and front for freedom of movement

Adjust to fit sizes 30"-42"

Outer belt strap - 5cm wide

1 of 4 repositionable D-rings for extra attachments

Heavy duty, quick release belt buckle

TOOLS & ACCESSORIES

INTERCHANGEABLE TOOL LANYARD V2.0

Attach. Release. Exchange.

The new and improved Dirty Rigger Interchangeable Tool Lanyard V2 is tougher than ever before. The quick-release clips are now made from electroplated steel, and the tool loop attachment is now compatible with even more tools, including most podger wrenches. As a result, it's our toughest and most versatile lanyard ever. Intended for general use.

Internal bungee helps absorb shock from a dropped tool

2 x quick release loop attachments with barrel locks

4-IN-1 PODGER RATCHET

A Solid Steel Combination Podger

4 socket sizes, constructed from alloy/carbon steel and coated in an ultra-tough nickel chrome plating. Compatible with most Dirty Rigger Tool Lanyards, the 4-in-1 Podger is an essential piece of equipment for any rigger.

Metric podger wrench socket sizes - 17, 19, 21 and 24mm

Imperial podger wrench socket sizes - 15/16 inch hex, 3/4 inch hex, 1/2 inch square and 7/8 inch hex

PODGER HOLSTER

The Handy Little Pocket For Your Podger

Keep your podger right by your side with the Dirty Rigger Podger Holster. Tidy and discreet, the holster is designed to fit the Dirty Rigger 4-in-1 Podger and most other podgers of equal size.

ADDED ASSISTANCE

GAFFER HOLDER

An Extra Hand by Your Side

The Gaffer Holder quickly and securely offers an accessible strap for holding tools, clamps, bags and, its original design intention - gaffer tape. The quick release buckle allows for single handed use, while the adjustable strap provides up to a 70cm circumference for larger items.

Gaffer roll not included. General use only. Not intended for working at height or fall arrest.

Lightweight aluminium snap hook

Quick-release buckle

Adjustable strap provides up to a 70cm circumference

GEAR BAG

A Rigger's Day, All in One Bag

Keep everything you need right by your side in the Dirty Rigger Gear Bag. 12ltrs of organised space, constructed using heavy duty materials and a water resistant outer shell. Padded walls help cushion everything from tools and equipment to tablet devices and drink flasks. 11 inner tool slots give one-handed access to your on-the-moment essentials while a huge central storage compartment caters for almost anything you need. Carry it all using the adjustable seatbelt-style strap and shoulder pad.

SUSTAINABILITY

We're on a mission to make a difference!

At Dirty Rigger, we're dedicated to leading the way in environmental sustainability. Over the past few years, we've collaborated closely with our material suppliers and manufacturing facilities to help protect our planet.

MADE FROM RECYCLED PLASTIC BOTTLES

In 2022, we began trialling an innovative material made from 80% recycled water bottles. By August 2023, nearly 90% of our Tool Pouch range was crafted using this environmentally conscious material.

As a result we save approximately 70,000 water bottles from ending up in landfills each year.

In 2024, we proudly launched the Skin-Free range, a selection of PPE rigger gloves made without animal hides. Driven by customer demand, the range expanded rapidly, and we continued to refine our gloves to further enhance the collection.

Today, nearly 80% of the Dirty Rigger glove range is now skin-free.

Furthermore, any gloves that do use genuine leather, are routinely reviewed, ensuring minimal wastage and that all leathers are free from restricted chemicals.

BUT WE WON'T STOP THERE.

We're continuously striving to ensure that every Dirty Rigger product has minimal environmental impact. We are committed to exploring and adopting more recycled materials and better replacements for leather whenever possible.

Together, let's work towards a greener and more sustainable future.

CUSTOMISE YOUR DIRTY RIGGER

YOUR

Your logo... your brand, visible on every hand on site.

Almost everything in the Dirty Rigger range can be fully customised, from the colour of our stitching to the wrist strap. We do it all for you, providing you with design support and constant updates right through to delivery.

Make it your **OWN!**

Add your **LOGO** onto the wrist tab

Fully customise the **wrist tab** with your logo and corporate colours

Choose from a range of colours for **knuckle piping**

Match the **stitching** to your corporate colours

We also customise **TOOLS AND POUCHES**

HERE'S A FEW WE MADE EARLIER

From simple branding on our gloves to laser engraving our multi-tools, you can **maximise your brand awareness** on the kit your crew wear and use every day.

WHY DIRTY RIGGER?

To us, it's simple... we listen. Almost every glove, every improved version, every material upgrade and every new item is driven by the people using our gear every single day.
